

THE BLACK

Injection

Clostridium Botulinum Toxin Type A

Purified Neurotoxin Complex

100UNITS

THE BLACK

Injection

Clostridium Botulinum Toxin Type A

Purified Neurotoxin Complex

클로스트리디움 보툴리눔

독소 A형

100 UNITS

THE BLACK Injection

Clostridium Botulinum Toxin Type A
Purified Neurotoxin Complex

HIGH PURITY

THE BLACK inj. has purity of 99%

EFFICACY

THE BLACK inj. is strictly controlled for safety and high & stable potency

POTENCY & STABILITY

MADE IN KOREA

THE BLACK

Injection

Clostridium Botulinum Toxin Type A

Purified Neurotoxin Complex

100UNITS

Classification

Medicine

Active Ingredients

Clostridium Botulinum Toxin Type A

Appearance

A white or pale yellow dried product in a colorless, transparent vial that, when dissolved in physiological saline, is a clear and transparent solution.

Dosage

100 units

Assay (Activity test)

87~115%

Molecular weight

900kDa

pH

6.0±0.5

Storage

2~8°C

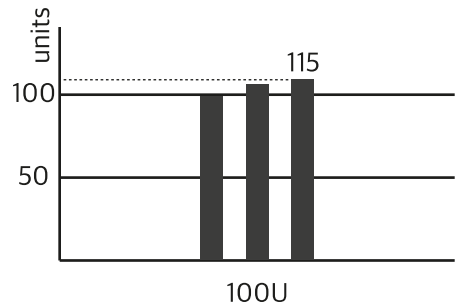

Expiration

36 months from date of manufacture

ACTIVITY TEST

THE BLACK Inj keeps stabilized potency of each vial by its own strict quality control system.

Specifications	MFDS	THE BLACK Inj
THE BLACK Inj 100U	80 - 125	90 - 115

HIGH PURITY

THE BLACK Inj is botulinum toxin with high purity.

Purity Test

Product Name : WIZTOX inj. 100Units
(Clostridium Botulinum Toxin Type A)(for export)

Lot No. : WT21013

Manufacturing Date : Jan, 18, 2021

Expiry Date : Jan, 17, 2024

제조번호	원액 순도시험 기준	시험결과
WT21003	1) SEC-HPLC: 클로스트리디움 보툴리눔 독소 A형 복합체는 총 시료 중 독소단백질 ≥ 95.00 %	99.98%
	2) UV-Nucleic acid: OD _{260/278nm} ≤ 0.6	0.50

**Purity by Size Exclusion Chromatography High Performance
Liquid Chromatography(SEC-HPLC)

Using Size Exclusion Chromatography High performance liquid chromatography(SEC-HPLC), undiluted toxin complex solution was analyzed which resulted in purity of over **99%**.
